

MAKE YOUR OWN SHADOW PUPPETS!

YOU WILL NEED:

A scissors, some glue, some cardboard to stick your shadow puppets to, (a cereal box would do), some sticks from an ice-lolly or any sticks you can easily stick to your puppet. You will also need a torch, a blank wall in dark space to make your puppets come to life!

INSTRUCTIONS:

1. Draw your own shadow puppet in the space provided 2. Stick the whole page onto the cardboard 3. Cut out all your shadow puppets carefully (get a grown up to help if the cardboard is too hard to cut) 4. Stick your lollipop stick on one side of the puppet 5. In a dark space, place the torch on a ledge or chair and move your puppets in the beam of light to make a little play.
